NIDHA HUSSAIN

Bengaluru, Karnataka 8105959659 nid.hahaha24@gmail.com
LinkedIn GitHub Portfolio

Skills

Programming: Python, Java, C, JavaScript, SQL
Web & Backend: Flask, REST APIs, HTML, CSS
Cloud: AWS, Azure, EC2, S3, IAM, VPC, RDS, Lambda, CloudWatch
Databases: SQLite, MySQL
Networking: LAN, Routers, Switches, VLAN, Network Troubleshooting
ML & Data: Pandas, NumPy, Matplotlib, Scikit-learn
Tools: Git, GitHub, VS Code, pytest

Projects

Flora Recognition – Crop Leaf Disease Detection *GitHub*

- Developed an image-based crop disease classification application using **MobileNetV2** to identify plant diseases across **38 classes**.
- Integrated prediction confidence and plant health insights into an interactive **Streamlit** interface.
- Achieved **91.53% test accuracy** on a 3,000-image test set.
- **Technologies:** Python, TensorFlow, MobileNetV2, Streamlit.

My GPT – Built from Scratch *GitHub*

- Implemented a GPT-style character-level language model with token and positional embeddings, causal self-attention, and transformer blocks.
- Trained the model using **PyTorch**, GPU acceleration, and the AdamW optimizer.
- Built a **Gradio** interface for interactive autoregressive text generation.
- **Technologies:** Python, PyTorch, CUDA, Gradio.

CodePulse – Python Code Analysis Tool *GitHub*

- Developed a static code analysis tool using **Python AST** to detect code quality issues, unused variables, and debug statements.
- Implemented cyclomatic complexity analysis, code health scoring, and JSON report generation.
- Added automated testing using **pytest**.
- **Technologies:** Python, AST, pytest.

Cloud Deployment Guard – Configuration Security Analyzer *GitHub*

- Built a Python-based static analysis tool to identify security and configuration risks in YAML deployment files.
- Implemented checks for SSH exposure, encryption, database backups, and HTTPS configuration.
- **Technologies:** Python, YAML, PyYAML, pytest.

Internship

Rapyder Cloud Solutions **Bengaluru**
Cloud Trainee *June 2026 – August 2026*

- Gained practical exposure to AWS infrastructure services, including **EC2, S3, IAM, VPC, RDS, and Lambda**.
- Used **Amazon CloudWatch** for basic infrastructure monitoring, log observation, and troubleshooting.
- Developed an understanding of cloud resource management, access control, and operational support practices.

Aspirare Communication Pvt. Ltd. **Bengaluru**
Network Engineer Intern *March 2026 – May 2026*

- Assisted with network connectivity monitoring, troubleshooting, and resolution of routine technical issues.
- Gained hands-on exposure to **routers, switches, LAN environments**, and network connectivity concepts.
- Supported network feasibility activities and strengthened technical problem-solving skills.

Achievements

- Achieved a **perfect score in Mathematics III (M3)** in the VTU external examination.
- Served as **Student Volunteer – Placement Cell**, T. John Institute of Technology.
- Worked as **Head Coordinator – QCFI**.
- **Certifications:** Microsoft Azure Fundamentals, Azure AI Fundamentals, Accenture Data Analytics & Visualization, Innomatics ML Workshop, Xcel Corp Python Bootcamp.

Education

T. John Institute of Technology **Bengaluru, Karnataka**
B.E. Computer Science & Engineering | CGPA: 8.45/10.0 *2023 – 2027*
Vijaya Bifurcated PU College **Bengaluru, Karnataka**
Pre-University Course (12th Grade) *August 2021 – March 2023*
